STA-MULSE ASP-50

Product Description

STA-MULSE[®] ASP-50 is a liquid, cost effective coal tar emulsifier that exhibits superior emulsification properties and readily mixes with refined coal tar pitch. Emulsions made with **STA-MULSE[®] ASP-50** show excellent dispersion characteristics and stability.

Special Features

- Can be used at low levels to achieve stable emulsions
- Produces smooth homogeneous, well blended emulsions
- Promotes particle suspension and emulsion stability
- Easy to use and readily miscible in hot refined coal tar pitch
- Compatible with most additives and aggregates

Note: ST Laboratories strongly recommends evaluation with additives and aggregates to establish compatibility.

Typical Physical Properties

Appearance @ 25° C	Clear, Yellow to Amber Liquid
Total Amine (Value mgKOH/g)	160 - 200
Neutralization (mole%)	45 - 69
Color (gardener)	10 Max
Density, lbs/gal. (@ 60° F)	7.5lbs/gallon
