

STA-MULSE[®] SURFACE ACTIVE AGENTS

Chemical Solutions for your Process Needs

STA-MULSE FB-14 is a patent pending product effective at boosting and stabilizing the foam profile of liquid hand dishwashing products. It is a non-irritating ether amine based nonionic surfactant chemically compatible with all other surfactant types and detergent ingredients. The excellent stabilizing property of FB-14 results from its ability to efficiently emulsify and disperse soil. These properties also make it a suitable use as a detergent additive in many other applications.

Physical Data

Form (@ 25 °C)	Clear Liquid
Solids (Wt %)	100%
Sp. G (@ 25° C)	0.99
Flash Point (° C)	>200° C

Performance

- Foam Stabilizer
- Wetting Agent
- Mild Surfactant
- Grease Cutting
- Soil/Emulsifier/Dispersant
- Viscosity Builder
- Detergent
- Biodegradable

Suggested Applications

- Dishwashing Detergent
- Hand Soap
- Waterless Hand Cleaner
- Metal Cleaners
- Janitorial Cleaners
- Textiles Detergent
- Dry Cleaning Detergent
- Car Wash
- Pigment Dispersant
