STA-MULSE[®] HDC

Product Description

STA-MULSE[®] HDC is a highly effective bio-based solvent blend used to remove asphalt and tar residue from parts, equipment, and trucks. This blend incorporates the functionality of bio-based solvents with specialty emulsifiers to provide an environmentally friendly alternative with excellent cleaning capabilities. It is used by national asphalt suppliers and applicators as a cost-effective solution to keeping trucks and equipment clean while maintaining compliance with environmental regulations.

Special Product Features

- Low Toxicity
- Readily Biodegradable
- Excellent Solvency

Typical Properties

ST LABORATORIES INCORPORATED
